

dungeon Exploration

- Exploration in a room stage, the random items, companions, events rooms and etc on the map brings different experience of the game each time.
- For the exploration, you need to work on equipment, recruiting teammates, and defeat the enemy by strategic, so as to make your team stronger and able to face more difficult challenges.
- You also need to pay attention to the mental state of the team, to avoid the characters' mental breakdown. The mental system also adjusts the enemies you encounter and the bonuses you get.

battle System

- Teammates will move at the same time, thus, one command will reach every team member. Since different character get different action point, you need to consider the formation changing and tactical strategies for this round.
- With the combination of rune magics and item resources, movement of combat, attack, casting and other operations are very flexible. Players can create their own combination of combo to solve a variety of problems faced on the battlefield
